

Community chest

A daily chest rewarded to players who invest in the social aspect of the game.

Intention : have the player have a short stroll around another player's hub

Player interest : being rewarded for interacting with others

- The chest's appearance is a blue chest
- Chest can be found once a day on another player's hub island
- Chest spawns next to the community center in a dedicated space

Note: Community Center placement must include the chest's space with it but chest remains hidden while not visiting another hub

- The player must get close to the building to get the chest and its contents
- Chest location is indicated by an red arrow pointing in its direction so players don't spend too much time searching for it
- Chest contents are gold coins and materials for crafting crewmates gifts
- Opening a chest earns social points to make it more attractive
- Chest will appear on every visited hub until it is found once
- Feature is unavailable while offline
