

Treasure Hunt

Players must find a large number of chests (10~20) hidden under vegetation that necessitate an event-exclusive type of shovel to be removed

Intention : make players come back to play the game for the duration of the event

Player interest : earn exclusive rewards + crewmate gifts materials to upgrade their crewmates

- Event takes place on a large special island so players of all progression levels can participate
- Shovels can be obtained daily, or by using gems
- All vegetation takes the same time to remove
- Chests are indicated with clues
- Chests are hidden semi-procedurally for each player so they can't trade chest locations among themselves
- Chests content can be gold coins, skip items or event-exclusive shovels
- The total number of chest opened also gives rewards in parallel of the chests' content (to be defined) (Seasonal Battle Pass?)
- Finding all treasure chests grants players an exclusive reward (skin)
