

Social Points

Players can earn Social Points by using a variety of social features in the game

Intention : make players indulge often in social activities to make them feel socially invested in the game

Player interest : earn exclusive rewards with points in the Social Points Shop

- Only a set number of activities can reward points per day:
 - Leaving a like on another's player hub = 1 social point (1x per day)
 - Doing Hub Visits = 2 social points (5x per day)
 - Find a Community Chest = 5 social points (1x per day)

Note: Players can still visit hubs after they've claimed their social points 5 times a day but won't receive points anymore until the next day

- Doing at least 1 visit daily can trigger a streak which will reward additional points per social activity :
 - 3 days streak : +1 per activity (=23 max points per day)
 - 6 days streak : +2 per activity (=30 max points per day)
- Receiving Likes from visitors earns the host player 5 bonus social points per like
